WORK EXPERIENCE

Senior Analytics Engineer
Primary.Health
Software to halt the spread of diseases and lessen the severity of all illnesses.

Dec, 2020 - Present | Remote

- Built a Databricks pipeline and dbt models for a health department's newborn-screening data, with automated sync and same-day alerting.
- Delivered 3 client-facing Omni dashboards replacing manual compliance reporting processes and becoming the client's primary reporting tool.
- Developed comprehensive Looker dashboards and custom metrics used by health workers on 800+ physical sites to help deliver 2mm+ vaccines/tests.
- Built a dbt ecosystem from the ground up, establishing modeling governance and testing best practices for the analytics team.

Data Analytics Mentor
CareerFoundry - Data Analytics Bootcamp

Sep, 2020 - May, 2025 | Remote

- Mentored data analytics students leading to dozens of data jobs.
- 1:1 Coaching on portfolio-ready SQL, Python, and dashboard projects.

Sr. Data Analyst
VSE (Contract)

Jul, 2020 - Jan, 2021 | Remote
